

## LED illumination for the Mobiloscope

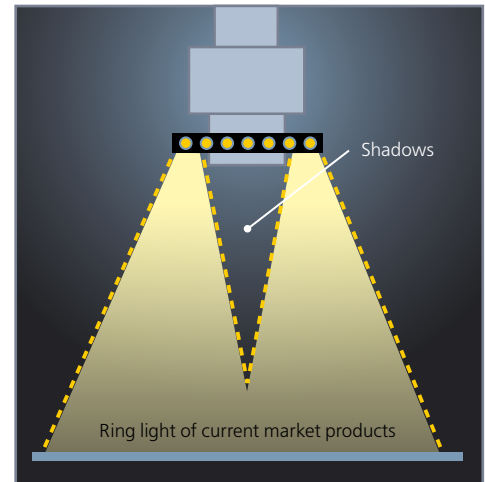

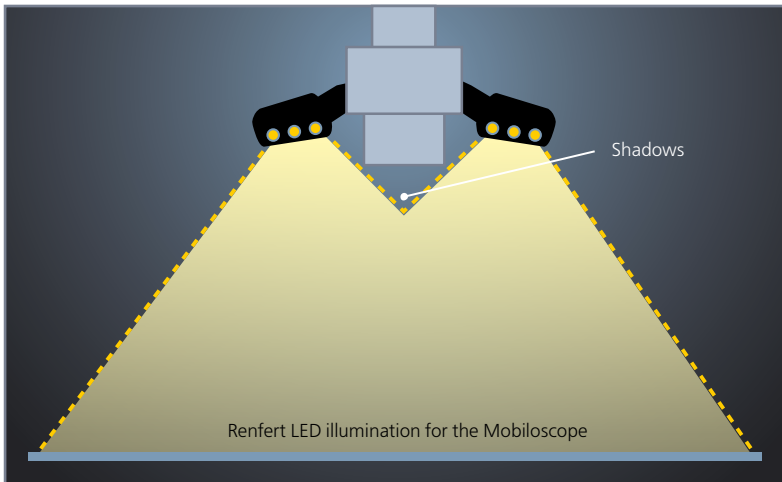

### PerfectView for the Mobiloskop

- ▶ 9,000 lux ensures perfect illumination
- ▶ 18 white-light LEDs for an optimal light color
- ▶ 15° illumination angle for uniform, shadow-free and contrast-rich illumination
- ▶ 2 intensities for optimal illumination of different materials
  - 1.) 100 % maximum intensity
  - 2.) 85 % intensity

**PerfectView**

## PerfectView

First used with the Basic sandblasters, the PerfectView now epitomizes operators' optimal view of objects being processed. The new Mobiloscope illumination is therefore also the expression of a perfect view.

### Backwards compatible

The LED illumination can be easily attached to any Renfert Mobiloscope.

### Tip

The new LED illumination is also an ideal addition to existing workplace lighting. Much more light for less money.

LED illumination for the Mobiloscope	Art. No. 2200 5000
Power supply	100 – 240 V AC, 50/60Hz
Nominal voltage	12 V DC
Power input	37 VA (level 1) / 23 VA (level 2)
Lamp nominal power	14 W (level 1) / 8 W (level 2)
Weight	250 g (without cable and power adapter)
Dimensions (HxWxD)	34 x 162 x 82 mm
Extent of delivery	1x LED lighting 1x multivoltage power adapter 2x mains cable (230 V & 120 V)
